The Hope Health enter pro ides medical care for Hope st dents d ring their enrollment at Hope ollege. The health center offers pre-entative health care treatment for illness or injory and health edication on an oit patient asis. Occasionally, health care staff will refer st dents for specialty ser ices within the comminity.

When a st dent nder years of age seeks treatment at the Hope Health enter we generally seek parental consent prior to pro-iding that treatment. It is sometimes diffic. It to consent to treatment which can efr strating for the st dent waiting for care. For this reason. Hope ollege recommends that the following a thorization e signed y a parent g ardian who will egin their st dies at Hope ollege efore they time.

Under Michigan law the following circ mstances allow for care nder the age of witho t parental g ardian consent

Emergency care
regnancy testing and prenatal care
Testing and treatment for sex ally transmitted infections
S stance a se treatment
Mental health co nseling p to o tpatient sessions or months of o tpatient co nseling are for emancipated minors
